Philanthropic position

We cooperate on implementing the Liechtenstein Government's financial center strategy which has defined philanthropy as one of its pillars. We are particularly committed to issues surrounding the cross-border activities of foundations.

Communication

We engage in active communication, both domestically and abroad, aimed at

promoting the positions of foundations, raising awareness of the sector.

Cooperation

Through our membership in DAFNE (Donors and Foundations Networks in Europe), our partnership with national foundations and with scientific institutions, we have developed an international network which makes it possible for us to monitor current developments and to engage in an exchange of experiences.

Standards

We are committed to foundation and trust management standards. With recommendations and leaflets, we provide members with practical guidance.

Science

By launching and supporting scientific projects on questions of foundation law we contribute to further developing the position and awareness of foundations.
